

RENAISSANCE

Manufacturing Excellence & Building Relationships Since 1988

About Federal Elevator

We are a reputable elevator manufacturer established in 1988, with a long history in supplying high quality equipment. Our experienced engineering team has refined the designs of several specialty models and our skilled manufacturing group is dedicated to developing quality elevators and parts. Every elevator that we manufacture is control tested before it leaves our plant to ensure superior working order and long-lasting performance.

Renaissance at a Glance

- 2 speed soft start and stop
- Capacity of 1000 lbs. (1500 lbs. available)
- Travels at 40 feet per minute
(Can be increased, speak to a representative)
- Requires a small machine room to accommodate pump unit, controller and power disconnects
- Can be completely customizable to suit the surrounding décor
- Numerous safety features included in design.

Our Showroom

Visit us to try before you buy. Our Showroom, located in Mississauga, features functioning elevators and displays of finishing and accessory options. Contact us to make an appointment.
